12. (Secret - GLC) Met with Jim Kendall, Chief Counsel, Senate Subcommittee on Preparedness Investigation, and offered him the latest [REDACTED] Alerts in 1970 (Alerts 446-475) dated 20 April 1971. Kendall said that since the departure of Colonel Glen Smith and Colonel Everett Harper from the staff he no longer had a need for these sheets and said we could discontinue our procedure of providing the Subcommittee with copies.

I reviewed with Kendall some of the most recent current intelligence items such as the detection of new ICBM silos in the Soviet Union and Soviet shipment of MIG 21s to Egypt. Kendall is being briefed fairly regularly by DIA on most of these topics, but he appreciated my going over the situation with him.

I mentioned to Kendall the request we had from GAO for the production of data on Soviet expenditures in the military research and development field in conjunction with a study they are doing for Senator McIntyre's R&D Subcommittee. Kendall expressed concern about providing this material through GAO and gave me some of the background on the departure of Ross Hamachek who worked for Senator McIntyre at one time and is now working for Senator Proxmire.

13. (Secret - GLC) [REDACTED] called to say that Marshall Green, Assistant Secretary of State for Bureau of East Asian and Pacific Affairs, would be testifying before the House Foreign Affairs Committee Monday and was interested in knowing the extent of the Director's briefing of that Committee on Laos. I told Nelson that the Director's last appearance before the House Foreign Affairs Committee was on 24 March 1970. His testimony included an intelligence briefing on Laos, but did not go into any details about Agency operations there. [REDACTED] said he would pass this on to Green.
